

ENGINEERED FOR ELECTRICIANS

INDUSTRIAL TUBE PRINTER FOR ELECTRICAL MARKING

Introducing Brother's PT-E800T and PT-E850TKW

Get job done in no time with these robust industrial tube printers.

Twin Engines
Meet the first industrial printers with twin engines. With just one machine, print on tubes and labels of up to 36mm for applications including warning signs and tags.

Zero Fuss
Switch between tube and label printing without replacing or re-inserting supplies. Need to replace worn-out parts? Do-it-yourself in a few quick steps. It's so easy.

Perfectly Portable
Get the printer working wherever and whenever with a Rechargeable Li-ion battery* and wireless capability.

PT-E800T

PT-E850TKW

Durable Labels
The printers use TZe laminated tapes, the toughest auto-laminated labels in the industry. Ideal for industrial use, TZe tapes are resistant to water, grease and harsh weather conditions.

Maximum Printability
Prints more on each label and ensure the legibility of text with the benefit of additional printable height.

Compact Design
The keyboard can be placed directly on top of the printer, saving extra space on every workplace.

*The rechargeable Li-ion battery and battery base have to be purchased separately.

START PRINTING IN 3 SIMPLE WAYS. HERE'S HOW.

You can print from the keyboard, PC or mobile app. It's as simple as it gets.

1 Prints via keyboard (Tube and label printing)

Design tube or label print artwork from scratch. Alternatively, for ease of use, use the keyboard to select a template

Select print options via the printer's keyboard

Hit print

2 Prints via PC (Tube and label printing)

Use Brother Cable Label Tool software for Tube or Brother P-touch Editor software for label to design templates

Select print options on PC

Send the file to print

3 Prints via mobile (label printing only)

Design label artwork on mobile device using the Mobile Cable Tool or Brother iPrint & Label app

Select print options on the mobile app

Send the file to print

SPECIFICATION

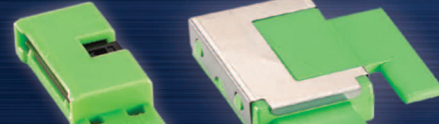

Two models with powerful strengths and features.

	PT-E800T	PT-E850TKW
Tube		
Compatible Tube Diameter	2.5 - 6.5mm	
Supported Tube type	PVC	
Maximum Print Height for Tube	6mm	
Tube Print speed	40mm per second	
Multi Line Printing for Tube	–	up to 2 lines
Interface	USB only	
Label		
Tape type	TZe, HGe, HSe (Heat Shrink tube)	
Maximum Tape width	up to 36mm	
Label Print resolution	360dpi	
Label Print speed	60mm per second	
Cutter	Auto and half cutter	
Multi-Line Printing for Label	–	up to 17 lines
Label collection	–	available in Brother iPrint&Label (Mobile app)
Interface	USB only	USB, Keyboard, WiFi
Brother iPrint&Label app Brother Mobile Cable Tool app	–	Yes
Multi-Line Printing for Label	–	up to 17 lines
General		
Machine Dimension (W x D x H) mm	338mm x 188mm x 151mm	338mm x 188mm x 151mm 338mm x 188mm x 173mm (with keyboard)
Tape cassette (included)	TZe-261 36mm Black on White tape (8m long)	
Black ink ribbon (included)	TR-100BK - 100m long	
Li-ion battery (optional)	PA-BT-4000LI	
Battery base (optional)	PA-BB-003	
AC Power adapter (included)	AD-9100ESA	
Keyboard	–	Yes
Number of Built-in symbols	–	465

SUPPLIES AND ACCESSORIES

Ensure the best printing results and a hassle-free experience with these handy accessories

Package content

PA-TC-001 Tube cutter
Cut the tubes into the specified length quickly and professionally.

TR-100BK ink ribbon
100m Black ink ribbon for tube printing.

PA-CL-001 Tube Cleaner
Cleans the tube to ensure surface is dirt-free before printing.

TZe tapes
Suitable to use in office and industry. TZe standard laminated tapes are weatherproof, waterproof and resistant to wear and tear.

PA-RL-001, PA-RL-002 and PA-RL-003 Conveyance rollers
Ensure tubes move smoothly through the machine.

Optional Add-on:

PA-BT-4000LI Rechargeable Li-ion battery and PA-BB-003 Battery base

Keep printer fully powered when unplugged and with Rechargeable Li-ion battery.
