

Future-ready Security and Efficiency

for Financial Services Sector

Brother Financial Services Industry Solutions

World-class productivity and security for your evolving needs

In the financial services sector, businesses rely on their printing and imaging solutions to streamline their operations across the board, meet strict regulatory compliance requirements, and uphold the highest standards of data security for customer confidentiality.

Trusted globally by financial institutions and insurance firms as a leader in print innovation, Brother offers our extensive range of reliable and customisable solutions, ready for full integration into your organisation. Transform your business workflow and cost efficiencies today, and start delivering competitive customer-centric services for unmatched customer satisfaction.

Brother solutions for today's Financial Services Industry

ENHANCED SECURITY AGAINST RISING THREATS

Secure client confidence in your financial services with enhanced protection of their confidential data. Brother printing and labelling solutions come equipped with enterprise-level security features to safeguard your organisation's information against fraud and cyber-attacks.

Customizable micro-print font

Print a micro custom message on the border of financial documents which becomes unreadable when copied. This can be readily authenticated with a 5x loupe.

Variable print

Create a visible watermark of customer's specific variable data (such as name, company, and account number) in repeating diagonal patterns across financial documents to prevent tampering.

Secure Printing

Share your Brother machines across departments while still safeguarding sensitive information.

- **Secure Print** ensures that documents sent for print remain stored in the printer's memory until a password is entered on the printer.
- **Secure Print+** lets you release the print job with a simple tap of your NFC card.

NFC tap to access

Near Field Communication (NFC) reader on selected Brother machines prevents unauthorised access and tracks individual usage. Simply tap your NFC card to securely access the machine without the need to enter a PIN.

Secure Function Lock

Limit the functions on your Brother machines for users or groups and have better control over who gets access to specific functions such as colour printing, copying, or the number of pages they are allowed to print.

Internet Protocol Security (IPsec)

Brother machines come integrated with IPsec for robust, industry-standard encryption, making them ideal for securing critical financial and customer information against interception and theft when sent for print.

INNOVATION THAT DRIVES PRODUCTIVITY AND COST-SAVINGS

Designed to optimise productivity and enhance your customer experience, Brother combines proven reliability, cutting-edge innovation, and flexible customisation in its award-winning range of printing and scanning solutions for the financial sector.

Compact footprint in a user-friendly package

Brother's range of space-saving solutions can be easily deployed across your busy customer-facing and back office environments. Featuring intuitive control panels, touchscreen displays, and innovative software for an effortless user experience, these versatile machines deliver big productivity in a compact package.

Decentralise your print environment

In the financial sector's fast-paced environment, deploying several desktop business printers across your departments offers numerous benefits over a single shared large copier. These include shorter queues and wait times, greater flexibility to suit each department's unique needs, and the option to place printers next to users who frequently print confidential documents for optimal security.

Bespoke accessories for your business

Simply add a paper tray to increase your paper capacity, or a tower tray for high-volume printing. You can also allocate specific trays for different paper sizes and colours, add a sorter unit to automatically collate print jobs by departments and users, or even attach a stapler unit to automatically sort and staple your documents.

Optimising your backend environment

Empower your IT administrators with innovative features that streamline their work processes.

- **Mass Deployment Tool** for easy management of device settings
- **Web BRAdmin** for fleetwide remote monitoring and troubleshooting
- **Universal Printer Driver** to support your entire Brother fleet without the need for separate printer drivers

Brother Managed Print Services (MPS)

Enjoy a fully optimised printing infrastructure without costly initial investments through Brother Toner Management Program. This comprehensive program provides you with full warranty, timely machine maintenance, on-demand toner replenishments and fixed toner prices throughout the duration of your agreement.

Brother's MPS advantage		
Business Needs	Lower Operating Costs	Improved IT & Organisation Effectiveness
Brother Managed Print Services	Optimise Print Infrastructure - Reduced cost per page - Low initial investment costs	Manage Printer Environment - On-site warranty and maintenance - Delivery of toner replenishment
Business Benefits	Cost Transparency & Greater Cost-savings	Boost IT Productivity & Printer Reliability
Enjoy greater ROI across the board		

DIGITISE YOUR PAPER-BASED RECORDS

Make the shift away from paper and benefit from the digitisation of administrative workflows. Brother professional high-speed scanners and Multi-Function Centres help your business seamlessly migrate from traditional paper-based client records into digital copies for easy management and access.

OUR DIGITISATION SOLUTIONS

Solution	Brother Scanners	Brother MFCs
Performance		
Single Page Duplex Scanning: Dual CIS scanning technology scans 2-sided documents in a single pass for faster scanning speeds.	•	•
Base Colour/Hole Punch Remover: Remove the base colour or hole punch marks on a scanned document for greater legibility and professionalism.	•	
Skip Blank Page: Automatically detects and skips black pages to cut down on scan times and files sizes.	•	•
Edge Recognition: Automatically recognises the dimensions of scanned documents to reduce file sizes.	•	
Integrated Card Reader: Effortlessly access machines and activate print jobs via NFC card.	•	•
Document Indexing: Optimise data entry by direct key-in of folder path on machine panel.	•	•
Software		
ABBYY FineReader: Easy conversion of scanned paper documents, PDFs and digital images into editable, searchable information.	•	
Button Manager: Assign up to nine different destinations to complete frequently performed scanning and sending tasks.	•	
ControlCenter4: Quick, easy access to machine functions directly via your computer to allow easy configuration of machines settings.	•	•
PaperPort Professional 14: Transforms documents into searchable PDFs to efficiently organise, manage and find documents, all in one software.	•	•
Scan to Functions		
Scan to Secure PDF: Creates a security PIN for scanned PDF files to help keep customers' confidential records secure.	•	•
Scan to PDF/A: Designed for long term archiving, PDF/A files will not lose their original formatting when opened by future applications.	•	•
Scan to SharePoint/Email/Network folder: Scan directly to various destinations without the extra step of saving on your computer first.	•	•

MOBILE AND CLOUD SOLUTIONS FOR SEAMLESS PRODUCTIVITY

—
More than ever before, financial advisors are using mobile devices to prepare and present financial plans, and you'll need solutions to empower that. Brother mobile and cloud solutions allow you to scan, print, share and collaborate anytime, anywhere for secure mobile productivity.

Empowering your on-the-go workforce

Designed for insurance and financial professionals on the go, Brother's compact Mobile Scanners and PocketJet mobile printers are compatible with most devices and have built-in wireless and Bluetooth connectivity for enhanced print and scan mobility.

Brother iPrint&Scan App

Compatible with your Android and Apple mobile devices, Brother iPrint&Scan App facilitates a host of print and scan activities simply by connecting to your Brother machine wirelessly.

Brother WebConnect

Our award-winning innovation offers a seamless way to print from and scan files to a wide selection of top cloud storage services such as OneNote®, OneDrive®, Google Drive™, Dropbox, and more. All done directly via your Brother machine.

Optimised solutions for your every need

Take a closer look at our comprehensive portfolio of recommended machines and solutions for every aspect of your business needs.

FRONT END

Scan and copy customer ID and print application forms

- Cost-efficient, dependable Multi-Function with Wireless connectivity
- Automatic 2-sided scanning and copying in a single pass
- Print on different paper sizes for various applications

Our recommendation:
Colour Laser Multi-Function Centre MFC-L8900DW
 Optional accessories: Tower Tray TT-4000

Secure printing of banking or investment contracts

- Professional mono laser printer with Wireless connectivity
- Large output capacity for easy document sorting
- Secure printing with inbuilt NFC card reader

Our recommendations:
Mono Laser Printer HL-L6400DW, Mono Laser Multi-Function Centres DCP-L5600DN, MFC-L5700DN
 Optional accessories: Document sorter MX-4000, Tower Tray TT-4000

Print and scan of financial documents and forms

- Quiet and compact Multi-Function Centre for all office environments
- Wired and wireless connectivity as well as Wi-Fi Direct

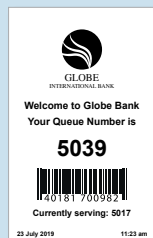

Our recommendation:
Refill Ink Tank Multi-Function Centre MFC-T910DW

Print queue numbers for customers according to selected services

- High-speed label printer with network connectivity
- Compact design for use in busy environments
- Seamlessly connect to your existing queuing systems

Our recommendation:
Compact Thermal Label Printer TD-2130N

BACK END

Print labels to clearly identify business assets and equipment

- Compact and Wireless label printer
- Chemical, water and temperature resistant labels
- Multiple colours of TZe tapes for easy equipment organisation

Our recommendation:
Label Printer PT-P950NW

Create identification labels for server cables and panels

- Portable handheld label printer with Wireless connectivity
- Print durable labels on site straight from your smartphone, tablet or laptop
- Compatible with heat shrink tubing for marking cables and wires

Our recommendation:
Handheld Label Printer PT-E550W

Print large labels to clearly identify business records and folders

- High-speed, high-resolution professional label printer
- Flexible Wireless and Bluetooth connectivity
- Convenient, drop-in tape rolls do not require ink or toner

Our recommendation:
Wireless Label Printer QL-820NWB

Scan and archive financial records

- Dependable document scanner
- Ultra-fast 2-sided scan speeds
- Versatile mixed batch document capabilities

Our recommendation:
Professional Colour Desktop Scanner ADS-3600W

BACK END

Real-time, fleet-wide management across your entire organisation

- Centrally manage your machines across all departments from one location
- Gain visibility over which machine is low on supplies or encountering errors

Our recommendation:
BRAdmin

Customised solutions for your organisation's unique needs

- Brother experts work closely with you to modify features and integrate with software solutions to meet your unique needs
- Design pre-configured solutions that are fully optimised for your business

Our recommendation:
Special Solutions Customisation

Secure your printed documents

- Documents are only printed when you're ready to collect them from the printer
- Release your print job using an NFC enabled ID card

Our recommendation:
Secure Print+

Print and scan lease and loan contracts

- Cost efficient and Wireless Multi-Function Centres for small workgroups
- Advanced scanning and copying features

Our recommendations:
Mono Laser Multi-Function Centre MFC-L5700DN,
Refill Ink Tank Multi-Function Centre DCP-T510W

INSURANCE

On the go/Office

Scan client ID and documents on-the-go

- Lightweight, portable USB-powered document scanner
- One-touch scanning with fast 2-sided scan speeds
- Easily scan photos, documents, receipts, business cards, ID cards, and more

Our recommendation:
Mobile Document Scanner DS-720D

Print insurance forms and policies on-the-go

- Portable high-resolution direct thermal mobile printer
- Print wirelessly from mobile or desktop
- Print up to A4

Our recommendation:
A4 Mobile Printer PJ-763MFi

Print customers' policies

- Durable mono laser Multi-Function Centre with Wireless connectivity
- High-speed printing and scanning to support multiple users
- High volume printing with tower tray

Our recommendations:
Single function Mono Laser Printer HL-L6400DW,
Mono Laser Multi-Function Centre MFC-L6900DW
Optional accessories: Document sorter MX-4000,
Tower tray TT-4000
